THE COLLECT

Almighty God, whose most dear Son went not up to joy but first he suffered pain, and entered not into glory before he was crucified: mercifully grant that we, walking in the way of the cross, may find it none other than the way of life and peace; through Jesus Christ your Son our Lord, who is alive and reigns with you, in the unity of the Holy Spirit, one God, now and forever. Amen.

Today, millions of people in South Sudan are at risk of starvation, hundreds of thousands have fled to neighbouring countries in a desperate quest for food, and many have died because the country is currently going through a famine. We are appealing for all to give generously in a second offertory today so that we may be able to help our brothers and sisters in Christ. This is part of the diocesan effort, through Barnabas Fund, to provide help in South Sudan.

13. **NCCS ADVISORY ON DISNEY'S "BEAUTY AND THE BEAST"**
Parental discretion and guidance is advised by the National Council of Churches of Singapore for the new Disney movie "Beauty and the Beast" due to a "gay moment" (the words of director Bill Condon) intentionally added to the classic children's story. This effort to normalize the same-sex lifestyle in the minds of young children undermines our responsibility to teach them God's design for the blessing of the human family. MEMORY VERSE

THE MEETING PLACE

Growing old can be fun. But, like our old, well-used and well-loved machines, our ageing bodies also suffer from some wear and tear.

Our vision is affected. It is almost inevitable. This coming April on the third Tuesday of the month, we bring you the topic of eye health. What are the common eye ailments in old age? How to detect these? What are the symptoms? What sort of treatments will be needed?

We are coordinating a 45-minute talk by Dr E-Shawn Goh, a Senior Consultant Ophthalmologist at Eagle Eye Centre, Parkway East Hospital, with another hour of free eye screening. Dr Goh was formerly with Tan Tock Seng Hospital and National Healthcare Group Eye Institute.

The talk will cover, among other eye ailments:

- **Diabetic retinopathy** - a diabetes complication that affects eyes. It is caused by damage to the blood vessels of the light-sensitive tissue at the back of the eye (retina).
- **Macular degeneration** - a **chronic** eye disease that causes blurred vision or a blind spot in your visual field.
- **Cataract** - a clouding of the normally clear lens of your eye.
- **Glaucoma** - the result of damage to the optic nerve. As this nerve gradually deteriorates, blind spots develop in your visual field.

We will be registering participants for this talk to enable us to better manage the screening process. We also need at least 50 participants for this session. We already have 12 registered. So do hurry. Please register at the Info Desk today or the Admin Office during office hours.

The talk will be held on
